TIE VOTE HIGHLIGHTS SPECIAL TOWN MEETING LAST THURSDAY

A tie vote by "yes" and "no" ballot on the article concerning the abolition of zoning regulation in the Residential-Farming District (R-F) was the feature of the special town meeting held at Bethel's Odeon Hall last Thursday evening. Dexter Stowell served as moderator.

The balloting by check list directed by the meeting after a 59-47 vote count by show-of-hands, in favor of the article, was questioned by a sufficient number of voters. The secret vote tally was 67-63, with the effect that all intents, the motion to accept the article appeared to have lost lacking the majority of the votes cast for adoption. However many of those present felt that in view of the tie vote, the earlier favorable vote should be used.

State Statute provides in Title 20, Chapter 254, Section 4: "When a vote directed by the moderator is immediately questioned by at least seven voters, he shall make it certain by pulling the votes or by a method directed by the legislative body."

The voters have in hand a letter from an attorney retained by advocates of abolition of zoning in the R-F District stating that the first 52-47 vote should stand.

All motion vote were presented by all other articles in the warrant.

Section 6 of Article IV of the zoning ordinance was amended to read as follows: No building shall be erected on a lot which does not abut a minimum of 20 feet of a public street, or on a private lot of way at least 20 feet wide extending to a public street.

Amendment was made to Article III, Section 4-B-7 (Industrial Districts) so to read as follows: Residential uses limited to functions such as watchman, caretaker, or janitor, or attendant laborer, not including their families, living in housing on premises of their employer provided such housing is owned and controlled by the employer subject to the approval of the building inspector.

The definition of Mobile Home Park in Article VII was amended to read as follows: Land upon which two or more mobile homes are located except such uses as may be permitted under Section 4B No. 7, of Article III as amended.

Article III, Section 5-D-1, was amended to read as follows: a. with public water and public sewerage 19,000 sq. ft. to with either public water or public sewerage 29,000 sq. ft. or with either public water or public sewerage 39,000 sq. ft.

A new section 3-A was added to read as follows: No public use or building shall be erected on a lot unless the lot is zoned for such use or building.

It was voted to amend the ordinance as amended March 1, 1960 Act 2 Section III entitled:
